**FREIGHT AND HANDLING CHARGES (FCA - Menominee, MI 49858, USA)**

Freight charges are a function of the weight of the freight and its destination. To determine the charge associated with your freight, take the following steps:

1. Determine the Freight Rate: identify in the chart below the state and the relevant rate based on the weight of the freight. There are two rates, one for shipments less than (or equal to) 1,000 lbs., another, for greater than 1,000 lbs. Example: The rate for a 1,570 lb. shipment to Oregon is \$73.

State	Freight Rate (weight ≤ 1000 lbs)	Freight Rate (weight > 1000 lbs)	State	Freight Rate (weight ≤ 1000 lbs)	Freight Rate (weight > 1000 lbs)
AL	\$64	\$55	NC	\$67	\$57

MO	\$61	\$59	WV	\$53	\$52
MS	\$62	\$53	WY	\$92	\$88
MT	\$64	\$60			

2. Determine the Multiplier: the multiplier is the weight of a shipment divided by 100 - (All weights shown in this price list are crated weights).  
Example: the multiplier of a 850 lb. shipment to SC is 8.5(850/100)

3. The Freight Charge is the Freight Rate multiplied by (times) the Multiplier.

Example: the weight of the shipment is 1,140 lbs. and it is destined to IA.

The Freight Rate associated with this shipment is \$46

The Multiplier of this shipment is 11.4(1,140/100)

The Freight Charge is \$46 x 11.4 or \$524.

**NOTES:**

**A. Rates ONLY apply if:**

1. Freight ships from factory location.
2. Doyon/NU-VU chooses freight carrier
3. Doyon/NU-VU must pre-pay and add freight to invoice

**B. For shipments to Hawaii or Alaska, please call factory for a quote.**

**C. Minimum Freight Charge: \$100.00**

**Extra Charges:**

(added to standard delivery charges)

1. Call before delivery = \$55.00
2. Inside delivery = \$80.00 per oven
3. Lift gate delivery = \$140.00
4. Construction site delivery = \$115.00
5. All other requests, call for pricing.
